Water Department

Non-routine activities for April 2020

1. No major water problems this month. Repaired small leaks, all ¾ to 2 inch and one six-inch line.

2. Major sewer issue on East Broad Street. North American Construction Company brought in to assess problem. Street signs set up and sewer placed on by-pass operation. Seeking proposals and estimates for repair options. City received award notice on the RIA grant for emergency funding to help. City looking at other finance options. After doing more video work, we found at least 2 sections we can't get through. We can not pipe burst line if we can't get through it. It looks like the only way to repair Spain to Ervin will be to dig it up. Budget numbers are still a moving target.

3. Several street paving projects have been completed and working on others.

4. Unusually heavy rains for over a week has caused exceptionally heavy loading on sewer lift stations, and the entire sewer system is full. We have had a couple of manholes to overflow. Working with SCDHEC on issues.

5. Working with City Manager on financing for projects needed.
